PARTS LIST

INSTRUCTION FOR USE OF PARTS CATALOGUE

This parts list is to be used when ordering replacement parts; it contains all parts for models PA 50 - PA 50S - PA 50 DX - 1982.

I. How to order parts

1. Information required

Replacement parts orders must contain both the **part number** and the **stamped number(s)** as described below. This is because any changes and modifications of parts are registered at HONDA with the pertinent parts and stamped numbers.

Numbers needed :

- | | |
|------------------------|---|
| (a) Carburetor parts : | Part number and
Stamped carburetor identification number |
| (b) Engine parts : | Part number and
Stamped engine number |
| (c) Frame parts : | Part number and
Stamped frame number |

2. Revisions

When modifications or additions to this parts catalogue are made, a revised edition will be issued at an appropriate time, with successively progressing revision numbers on the cover. We recommend obtaining such revisions in order to keep your parts catalogue up-to-date at all times. To check whether a parts catalogue revision has been issued, please contact your HONDA distributor.

II. How to read this parts catalogue

1. Make-up of the part number

(Example) General part

(Example) Bolts, nuts and other standard parts

2. Color codes

Color code		Color description
Parts code	HONDA code	
CR	R111	Coral Red
ME	—	Medio Blue
B	NH1	Black
CW	NH24	Ceramic White
VB	—	Varnish Blue
VV	—	Varnish Green
VS	—	Varnish Silver
DB	—	Dark Brown
VR	—	Varnish Red
VG	—	Varnish Gold

3. Abbreviations

The following abbreviations are used in this part catalogue.

ASSY. Assembly	GR Greece
COMP. Complete	N Norway
R. Right	NL The Netherlands
L. Left	USA America
STD. Standard	CH Switzerland
MM Millimeter	MA 25 KPH
G Gram	MO 40 KPH
T (22T) Tooth (22 Teeth)	KPH Kilometers per hour
A Ampere	MPH Miles per hour
V Volt	L (100L) Link (100 Links)
W Watt	A.C. Alternating current
FWD Front Wheel Direction	D.C. Direct current
A Austria	IN. Inlet
B Belgium	EX. Exhaust
CDN Canada	FR. Front
D Germany	RR. Rear
DK Denmark	HEX. Hexagonal
E Spain	A.M. Attaching mark
F France	T.M. Transcript mark
GB Great Britain	

4. Dimensions

All dimensions are given in millimeters (mm) except in the case of steel balls, tires and tire tubes.

Parts	Example	Interpretation
Bolt (Screw)	6 x 12	6 mm diameter, 12 mm length
Pin	8 x 14	8 mm diameter, 14 mm length
O-Ring	9.5 x 1.6	9.5 mm diameter, 1.6 mm thickness
Oil seal	14 x 24 x 5	14 mm inside diameter, 24 mm outside diameter, 5 mm thickness
Tube	5 x 130	5 mm inside diameter, 130 mm length

5. Superseding of parts

Part numbers given under the part name in the "Description" column indicate that the part number has been superseded by that part number. HONDA may make such superseding without notice.

6. Assemblies

Sections framed with broken lines in the exploded view drawings are available as complete assemblies. (Their individual parts can also be obtained.)

7. Required quantity

The number given in the "REQD. NO." column indicates the quantity of parts used in the section described in that block.

Parts with quantities in () represent part of local purchase.

III. How to use the flat rate time (F.R.T)

This F.R.T. (Flat Rate Time) is used to determine the standard labor time allowed for replacement of parts covered by the warranty during the period the warranty is in effect. The F.R.T. for those parts which are not listed herein should be determined from the operation closely related to the replacement of that part.

1. The F.R.T. is based on the following servicing conditions

- A liberal allowance is added to the net servicing time.
- Standard times specified are based on the condition that the necessary servicing tools listed in the service manual (motorcycle) which describes the HONDA service policy are available close at hand and the work performed by a mechanic with normal skill.
- Time required for inspection and operational test following the servicing is included in the F.R.T.

2. Method of computing

The job times are listed in tenth of an hour to simplify computation.

(Example) 0.3 = 18 minutes
5.6 = 5 hours and 36 minutes

CONVERSION CHART			
Hours	Minutes	Hours	Minutes
0.1	6	0.6	36
0.2	12	0.7	42
0.3	18	0.8	48
0.4	24	0.9	54
0.5	30	1.0	60

3. Computing the F.R.T.

When several jobs are performed at the same time, make the calculation in the following manner.

a. Jobs of non duplicated nature

The F.R.T. for the job is obtained by totalling the F.R.T. for each part replaced.
(Example) Replacement of cylinder and stator comp.

Service item	F.R.T.
Cylinder	0.6
Stator comp.	0.4

The F.R.T. for the job is : $0.6 + 0.4 = 1.0$

b. Jobs of duplicated nature

Take the F.R.T. for the last part to be replaced.

(Example) Replacement of cylinder head gasket and piston.

Service item	F.R.T.
Cylinder head gasket	0.2
Piston	0.6

The F.R.T. for the job is : 0.6

c. Jobs of partially related nature

Total up the F.R.T. for all of the parts replaced and then subtract the F.R.T. for the duplicated operation.

(Example) Replacement of crankshaft and transmission cover assembly.

Service item	F.R.T.
Crankshaft comp	* 2.3
Transmission cover	0.6
Drive belt	0.2

The F.R.T. for the job is : $(2.3 + 0.6) - 0.2 = 2.7$

Drive belt disassembly is the duplicated operations.

- The F.R.T. shown with (*) includes engine removal and installation.

4. Operations other than replacing parts

- a. Removed and installation () : With oil pump type

No.	Service item	F.R.T.
1	Engine	0.6
2	Cylinder head	0.2
3	Carburetor	0.3 (0.4)

- b. Adjustment, measurement and cleaning

Engine

() : With oil pump type

No.	Service item	F.R.T.
1	Mission oil-inspection (excluding oil change)	0.1
2	Cleaner element-cleaning	0.1
3	Compression-pressure measurement	0.1
4	Spark plug-adjustment and cleaning	0.1
5	Ignition timing-inspection	0.2
6	Throttle operation-adjustment	0.1
7	Carburetor idle-adjustment	0.1
8	Carburetor-float level measurement	0.4 (0.6)
9	Oil stainer-cleaning	0.4
10	Oil pump air bleed	0.1

Frame

No.	Service item	F.R.T.
1	Front brake-adjustment	0.2
2	Rear brake-adjustment	0.1
3	Brake-operation test	0.1
4	Headlight-aimings	0.1
5	Drive pedal chain	0.1

- c. Overhaul

() : With oil pump type

No.	Service item	F.R.T.
1	Carburetor	0.5 (0.6)
